**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Dicran Halajian on 05/09/2008.
3. The application has been amended as follows:
  - (a) As to claim 1, lines 5-6, delete "mounting the turbine unit to the rotor and to form" and replace it with --mounting the turbine unit to the rotor to form--
  - (b) As to claim 4, line 1, delete "A method" and replace it with --The method--.
  - (c) As to claim 6, line 2, delete "an electrical suction unit" and replace it with --the electrical suction unit-- for proper antecedent basis.
  - (d) As to claim 6, lines 2-3, delete "in accordance with a method" and replace it with --in accordance with the method-- for proper antecedent basis.

***Reasons for Allowance***

Art Unit: 2856

4. The following is an examiner's statement of reasons for allowance:

(a) As to independent claim 1, note is made only of the limitation "removing an amount of material from the rotor...and...removing an amount of material from the turbine unit". Note is also made of the benefit of removing an amount of material from both the rotor and the turbine unit (specification, page 7, lines 19-20 and 27-29).

(b) The closest prior art references Kihara et al. (Japanese Patent Application Publication Translation JP 08065956 A henceforth "Kihara") and Luedtke et al. (US Patent Application Publication 2006/0115368 A1 henceforth "Luedtke") disclose a similar invention as set forth in the previous Office Action mailed on 01/08/2008.

However, Kihara or Luedtke does not expressly disclose or provide motivation for removing an amount of material from both the rotor and the turbine unit in order to torque-balance the rotatable part of the suction unit.

(c) Therefore, the prior art does not disclose or provide motivation for the above-mentioned limitation in combination with the rest of the limitations in claim 1.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAMIR M. SHAH whose telephone number is (571)272-2671. The examiner can normally be reached on Monday-Friday 10:00 am to 6:30 pm.
